# MAGIC TRICKS Afterschool Club

At Jam Coding, our goal is to help improve children's digital skills. In this workshop, children will learn how to make magic with code! They will wow their friends with the Hide and Seek Hack, Magic Speed Reaction Tests, and Magic Morse Code. This workshop uses visual coding skills along with computing teamwork and circuits to make magic tricks come to life. At the end of the course, all children will receive a certificate and one team will receive a trophy!
